

### 01. Brighter Aim (Regarde)

Hold on another night  
we keep on trying  
to live for a brighter aim again  
to disclose who we are  
life keep running on and on  
it won't come back  
Many years are running so far  
away  
this life keep floating  
Another night a new tomorrow,  
tomorrow  
Hold on another night  
we keep on trying  
Still trying to leave some regrets,  
moving on  
Too blind to see the future  
looking through the past  
Many years are running so far  
away  
this life keep floating  
Another night a new tomorrow,  
tomorrow  
Still trying to leave bad things  
behind  
we're gonna live tonight

### 02. Fed By Lust (Regarde)

They ask for more  
They're hiding in the darkness  
once again  
They ask for more  
They're haunting through the  
darkness once again  
These people make me bother  
they won't settle for some gain  
They won't settle  
cheat for live, fed by lust  
they will fall  
they won't settle  
It was last december  
here was empty nobody around  
Learned lies empty glances  
have you told them why good  
times came and went?  
These people make me bother  
they won't settle for some gain  
They won't settle  
cheat for live, fed by lust  
they will fall  
They won't settle  
Look at what they've done  
you got to keep in mind this time:  
They won't settle

### 03. Il Pilota, Il Viaggiatore (Pastel)

Immagini sfocate  
Tropo veloci  
Sintesi è Apoteosi,  
Quadrare Sinusoidi  
Non sono spesse mura.  
A proteggere la vita,  
Spostamenti prolungati,  
Parlare nel viaggio.  
"Attente Isole!"  
Le Muse, stanno a guardare.

### 04. Il Pianista, L'Inventore (Pastel)

Un timido accenno  
Una sola ripetizione  
Danza ormai finita  
Per sempre senza nome  
"Caduta libera o ascesa?"  
Toccare aria non è possedere  
Il prossimo è obbiettivo.  
Non ancora ultimo.

### 05. Footsteps (Saudade)

Blind rage  
you cannot take it  
unexperience  
is not an excuse  
how could you fall short  
how could I be so dumb  
blind  
unaware  
looked the other way  
smile as they harass our foundation  
you smiled  
too busy to care  
can't even pretend  
can't notice the noise I make with  
my teeth  
spit out  
I should have smashed  
your head  
through the wall  
yellow sheets  
glory days  
lost and forgotten  
as I walk  
behind the door  
I'll be careful  
not to leave footsteps

### 06. Living Noise (Saudade)

I know solitude is coming  
I see its contour lines  
what a good view  
for understanding our denial  
cut the chord

out of breath  
finish me  
choke the bore  
glue every part of it  
used to it but no avail  
separate our ways again  
"I need more than you can  
spare"  
careless  
uninspired  
don't get too bored  
or you'll get boring  
fake it  
act it  
mold it
