LOOKING
FOR
A LABEL!

Pipes and Pints were formed in 2006 by Vojta Kalina (highland bagpipes/vocals) with a dream of a band that combines punkrock with dirty folk music. Soon after, he met Tomas Novotny (guitar/vocals) who shared the same dream, flavoured by country and rock & roll. For some time (in 2007/08) the band was functional, only to collapse because other members had different vision of the future. But it was not the time to wake up yet. Now the hard core of Pipes and Pints was powered by Lukas Vincour (drums/vocals) followed by Syco Mike (lead vocals). The journey of these musicians, to find people like them, punks who want to spend their lives touring, seems to have finally ... started. This Demo is a promise of better days and the beginning of a new adventure. Promise that these boys will give you all they have.
